5. Coin ITB

a. Technology

Using the latest technology and breakthrough improvements on ERC20 platform

b. Liquidity & sustainability

Coin ITB is created on the basis of counterpart funds. Each coin, when officially released, is guaranteed to be \$ 1 freeze in the bank account. Ensure the price of the ITB always has a minimum face value of \$.

c. ITB number & division

Total issued 100,000,000 IBT

Valuation issued \$ 1

Proportional ITB allocation

- 40% free release to the community.
- 60% is issued as ICO

d. Free ITB allocation

Take the time after 20 weeks to pay as a coin donation. Estimating the minimum profit is 20% of the value of the investment package, this minimum profit will be used as a counterpart fund for issuing coins.

The donation level is calculated as follows

Package	>999	>1.999	>4.999	>9.999	>=19.999	>49.999
Minimum profit (\$)	200	400	1.000	2.000	4.000	10.000
Coin donated	200	400	1.000	2.000	4.000	10.000

Free issue coins start from July 16, 2019, ending when allocating a sufficient amount of 40,000,000 ITB

After allocating a sufficient number of free tokens, we will open the remaining tokens for each specific batch, officially announced at the website.

e. Use ITB release fund

- 70% use platform reinvestment, upgrade the system. Includes costs for manpower, machinery and training
- 15% risk fund, used to cope with emergency situations, may happen unexpectedly.

- 15% use the costs for communications to help the iTrader become more popular and develop sustainably

6. ITB copper application
